

EPA Egg-shape adapter for RX140SAT II Ø 250/375mm - 800/1200mm

For inspections of egg-shaped pipes with lateral crawler RX140SAT II

During inspections egg-shaped pipes the EPA ensures that the crawler holds his horizontal position and don't tilt over.

Technical data - EPA RX140SAT II

Pipe diameter (BxH)	250/375mm up to 800/1200mm
Speciality	QCD design for adjustment of guide arms
Ambient temperature range	0°C up to 40°C
Storage temperature range	-20°C up to 70°C
Material	Anodized aluminium and stainless steel
Dimensions (BxHxT)	400 x 275 x 240mm
Weight	6,8 kg

EPA compatible with:

RX140SAT II	yes
RX140SAT	no
RX95, RX130, RX400	no
RED300	yes

- for inspection of egg-shaped pipes
- wide application range
- QCD design for a fast and toolless setup
- simple adjustment for different profiles
- generally no entering of manholes necessary
